

# aspire

Residential & Commercial Vertical Platform Lifts

- The Aspire's acme screw direct drive makes it the quietest and smoothest vertical platform lift on the market.
- Safety features include under platform obstruction detection, emergency stop switch, anti-skid floor surface, emergency alarm, and much more.
- Great for indoor and outdoor applications. The non-skid epoxy coated floor and galvanized steel panel is weather resistant, even in the harshest conditions.

# ASPIRE VERTICAL PLATFORM LIFT

## Product Features

- Acme screw direct drive provides the smoothest and quietest lift on the market
- Constant pressure rocker switch inside the platform for easy operation
- Automatic self-lowering folding ramp for simple boarding and exiting
- Weather-resistant design for durability under any condition
- Battery powered, works even if there's a power outage
- Safety panel under the platform floor for obstruction detection
- Emergency stop switch on platform for security at all time
